10th ANNUAL DAY OF CARING

September 24, 2011

Day of Caring is a city-wide week of service during which volunteers from area businesses and organizations visit, assist, and complete projects at one of our community's non-profit agencies. Each agency submits requests for volunteer help on a broad variety of projects, ranging from building wheelchair ramps to painting a nursery to landscaping around an agency's office.

- ✓ Day of Caring provides an opportunity for employees to help others through hands-on experience and see where their donations go and how agency programs are affecting people's lives.
- ✓ With many projects requested requiring over 100's of volunteers, we need your organization's participation to make this a successful Day of Caring!

Build a Team!

Employee groups from your organization can be matched with one or more of the assignments and projects on the Week of Caring project list. Not only do these **agencies and individuals benefit**, but it's also a **great team-building exercise** and a proven morale booster for your employees.

Make a difference!

Many of the projects requested for Day of Caring would be too expensive for the limited budgets of these non-profit agencies. **Day of Caring provides opportunities for your organization** to assist agencies in completing those projects. Your participation allows them to direct as much of their budgets as possible to giving the people of the Greater Texarkana area the assistance they require to help themselves. This is also philanthropic activities.

Exceed your Goal!

Nothing sparks a successful United Way campaign like participation in Day of Caring.

Participants have an opportunity to see first-hand how their United Way contributions are being used to change peoples' lives, and they'll pass along their enthusiasm to their fellow employees.

Change a Life!

Join us now for the Day of Caring and help us change lives and create true community impact!

Please sign up by **Monday, September 24, 2011**
